PRESS RELEASE

January 21, 2010
Vista, CA
FOR IMMEDIATE RELEASE

**Professional Water Technologies Welcomes Ryan Furukawa,
Technical Support Manager**

Professional Water Technologies, specialists in reverse osmosis chemicals and membrane forensics services, announces the addition of Ryan Furukawa as the group's Technical Support Manager. "Ryan has a valuable skill set focused on reverse osmosis, ultrafiltration, nanofiltration, and various process separation technologies," says Stephen Dunham, VP After Market Solutions and former President of PWT. "His technical field experience and professional character make him a valuable addition to the PWT team."

Prior to joining the PWT team, Ryan was the Technical Support Group Leader for Hydranautics. His duties included supporting the membrane manufacturer's technical analyses as well as troubleshooting plants in the field. He has also authored several technical papers related to membrane processes and has first-hand operational experience.

Ryan's primary responsibilities at PWT include on-site technical support for PWT's client base, leading the MF/UF investigative effort for PWT's Membrane Forensics group, and assisting in PWT's ongoing R&D efforts. Ryan's office is located at PWT's global headquarters: 1048 La Mirada Court, Vista, CA 92081. He may be reached at rfurukawa@pwtinc.com or by phone at 760-639-4400.

About Professional Water Technologies

Professional Water Technologies develops, manufactures and sells specialty chemicals for industrial and commercial reverse osmosis (RO) processes. With a complete line of RO pretreatment and maintenance products, comprehensive analytical and technical capabilities, and a progressive research and development group, PWT offers solutions to maximize the efficiency and economy of RO operations.
